

NHBC standards UPDATE

Chapters 10.2

- Chapter 10.2 applies to Drives, pathways and landscaping
- Updated November 2020

The key changes are:

- 10.2.8 - Reference is made to appropriate soil selection and management;
- 10.2.9 - There is more detail provided on reinstatement/improving drainage. There is also now a requirement for the upper 450mm to be free from obstructions

*The NHBC has allowed TOPSOIL to use the following statement:
"British Sugar TOPSOIL can help builders meet the requirements of NHBC Standards, Chapter 10.2
'Drives, paths and landscaping', for topsoil"*
