

## Sports&Turf

Sports&Turf is designed to improve soil based playing surfaces and lawns. The combination of a coarse to medium sub-angular sand mixed with British Sugar TOPSOIL gives good drainage whilst promoting grass establishment and growth. The BS3882 compliant topsoil within the blend contains both phosphorous and potassium, which contributes to soil fertility and encourages healthy growth.

**A 90% sand based dressing**

### STRI Statement

“Sports&Turf is suitable for use on natural soil constructions and offers the advantage of providing nutritional benefits to the turf, as evidenced by turf green-up seen on test plots in Autumn 2017”
