The Sustainable
Choice
from British Sugar

HortLoam

Premier planting soil HortLoam, a BS3882:2015 compliant planting topsoil.

HortLoam contains coarse sand and additional reserves of organic matter in the form of BSI PAS 100 & CQP compliant 'green' compost, giving it a more open and free-draining structure. This

provides the optimum environment for establishing young plants and encouraging healthy root growth.

HortLoam's coarser texture is ideal for shrub and vegetable planting schemes, podium projects, raised beds, and the planting of rootball trees.

- ✓ Shrub beds
- ✓ Raised beds
- ✓ Planting trees and ornamentals
- ✓ Vegetable planting projects

- Valuable horticultural properties
- Optimum nutrient levels
- Fully analysed
- Compliant to BS3882:2015

Features	Benefits
